

6.5.2 Preview

We'll add three new buttons to the homepage, listing featured repositories as the following image shows:

Try to organize the steps we'll take to get there:

Arrange the following steps in order:

- ≡ Display the API data on the page.
- ≡ Call the API function when buttons are clicked.
- ≡ Create a function to call the GitHub Search API.
- ≡ Save your progress with Git.
- ≡ Add language buttons in the HTML.
