5   Dessert Menu

Third-party APIs allow you to access additional functionality from a JavaScript library by including a link to a CDN (content delivery network) on your website. Want to explore working with these APIs in more depth? Check out the resources we've included below.

jQuery

- Need a refresher on jQuery basics? Watch this short series of videos from Traversy Media: **jQuery Crash Course (https://www.youtube.com/playlist?list=PLillGF-RfqbYJVXBgZ_nA7FTAAEpp_IAc)** .

- Still not clear on the differences between jQuery and JavaScript? Here's a short video summarizing some of them: **jQuery vs JavaScript (https://www.youtube.com/watch?v=S8ZuLY-Flm0)** .

- Danny Guo explores why jQuery is the most widely used JavaScript library in the world: **The History and Legacy of jQuery (https://blog.logrocket.com/the-history-and-legacy-of-jquery/)** .

- Martin Tournoij still prefers jQuery over vanilla JavaScript. He explains his reasoning in **Why I'm Still Using jQuery in 2019 (https://arp242.net/jquery.html)** .

Bootstrap

- Carol Skelly explains the rules of Bootstrap's grid: **How the Bootstrap 4 Grid Works** **(https://uxplanet.org/how-the-bootstrap-4-grid-works-a1b04703a3b7)** .

- Explore these interactive lists of Bootstrap classes:

  - **Hacker Themes Bootstrap 4 Cheat Sheet (https://hackerthemes.com/bootstrap-cheatsheet/)**

  - **Creative Tim's Bootstrap 4 Cheat Sheet** **(https://www.creative-tim.com/cheatsheet/bootstrap4)**

CSS Library Alternatives to Bootstrap

- **Materialize.css** **(https://materializecss.com/)** is a modern responsive front-end framework based on Google's Material Design.

- **Pure.css** **(https://purecss.io/)** is a set of small, responsive CSS modules that you can use in every web project.

Moment.js

- Read Jason Arnold's explanation of how Moment.js simplifies date formatting: **A Moment with Moment.js (https://medium.com/@thejasonfile/a-moment-with-moment-js-c5d097d2b61c)** .

- Save yourself some time by bookmarking this Moment.js cheat sheet: **Moment.js Cheat Sheet** **(https://devhints.io/moment)** .

Fonts

- Check out this practical guide for developers to learn web typography: **Typography for Developers** **(https://css-tricks.com/typography-for-developers/)**

- **Font Squirrel** **(https://www.fontsquirrel.com/)** is a great resource for free fonts, identifying fonts, and generating web fonts.

- Abbey Fitzgerald discusses the advantages of using font icons in **Why You Should Start Using Font Awesome (https://getflywheel.com/layout/why-you-should-start-using-font-awesome/)** .
